

## **JAEGER RESOURCES ANNOUNCES EXPLORATION UPDATE**

**Edmonton, AB-July 17, 2019-Jaeger Resources Corp. (TSXV: JAEG)** is pleased to announce the completion of the magnetometer and VLF geophysical surveys on the Taylor Brook zinc – lead – silver Property in New Brunswick.

New and untested magnetometer and VLF anomalies have been located on the western and southern sections of the new grid. (see press release of June 26, 2019). These anomalies occur in an area where little to no exploration work has been conducted. More lines will need to be cut in order to map the extent of these anomalies.

Additional line cutting followed by magnetometer and VLF geophysical surveys are expected to commence in August.

The purpose of these geophysical surveys is as follows:

- Locate and map linear structures.
- Define in better detail the known mineralized zones.
- Locate new mineralized zones and prospects.
- Target zones for the Induced Polarization geophysical survey.

### **About Jaeger Resources Corp.**

Jaeger Resources Corp. is a Junior Canadian Exploration Company focused on evaluating high potential, undervalued mineral properties for acquisition, which can be developed to give investors a fair return on investment. Jaeger has entered into an agreement with Stratabound Minerals Corp. (see press release of February 22, 2017) to explore and develop the Taylor Brook zinc – lead – silver deposit in the Bathurst Mining Camp, New Brunswick, Canada. In addition to the Taylor Brook property, other properties of merit have been submitted to Jaeger which needs to be evaluated more thoroughly.

***Notice Regarding Forward-Looking Statements***

*This news release contains “forward-looking statements”. Statements in this press release which are not purely historical are forward-looking statements and include any statements regarding beliefs, plans, expectations or intentions regarding the future, including but not limited to, statements regarding the Taylor Brook Property.*

*Actual results could differ from those projected in any forward-looking statements due to numerous factors. Such factors include, among others, the inherent uncertainties associated with mineral exploration and difficulties associated with obtaining financing on acceptable terms. We are not in control of metals prices and these could vary to make development uneconomic. These forward-looking statements are made as of the date of this news release, and we assume no obligation to update the forward-looking statements, or to update the reasons why actual results could differ from those projected in the forward-looking statements. Although we believe that the beliefs, plans, expectations and intentions contained in this press release are reasonable, there can be no assurance that such beliefs, plans, expectations or intentions will prove to be accurate.*
