

JAEGER RESOURCES ANNOUNCES EXPLORATION UPDATE

Edmonton, AB, June 26, 2019 - Jaeger Resources Corp. (TSXV:JAEG) is pleased to announce the completion of 12 km's of line cutting that expands the grid that was established in 2018 on the Taylor Brook zinc – lead – silver Property in New Brunswick. Several magnetometer, VLF and HLEM anomalies were left open-ended and need to be followed up (see press releases dated December 16, 2018, March 4, and June 14, 2019). The extended grid also covers several known mineralized showings that have not been adequately explored. The magnetometer and VLF geophysical surveys are expected to commence in early July.

The purpose of these geophysical surveys is as follows:

- Locate and map linear structures.
- Define in better detail the known mineralized zones.
- Locate new mineralized zones and prospects.
- Target zones for the Induced Polarization geophysical survey.

About Jaeger Resources Corp.

Jaeger Resources Corp. is a Junior Canadian Exploration Company focused on evaluating high potential, undervalued mineral properties for acquisition, which can be developed to give investors a fair return on investment. Jaeger has entered into an agreement with Stratabound Minerals Corp. (see press release of February 22, 2017) to explore and develop the Taylor Brook zinc – lead – silver deposit in the Bathurst Mining Camp, New Brunswick, Canada. In addition to the Taylor Brook property, other properties of merit have been submitted to Jaeger which needs to be evaluated more thoroughly.

Notice Regarding Forward-Looking Statements

This news release contains “forward-looking statements”. Statements in this press release which are not purely historical are forward-looking statements and include any statements regarding beliefs, plans, expectations or intentions regarding the future, including but not limited to, statements regarding the Taylor Brook Property.

Actual results could differ from those projected in any forward-looking statements due to numerous factors. Such factors include, among others, the inherent uncertainties associated with mineral exploration and difficulties associated with obtaining financing on acceptable terms. We are not in control of metals prices and these could vary to make development uneconomic. These forward-looking statements are made as of the date of this news release, and we assume no obligation to update the forward-looking statements, or to update the reasons why actual results could differ from those projected in the forward-looking statements. Although we believe that the beliefs, plans, expectations and intentions contained in this press release are reasonable, there can be no assurance that such beliefs, plans, expectations or intentions will prove to be accurate.
